FREE STARTER GUIDE FOR REAL ESTATE AGENTS

3 AI Prompts Every Agent Should Use This Week

Make AI sound like you, write listing copy without invented facts, and answer new leads in under five minutes.

Works with ChatGPT, Claude, Gemini or any AI chat tool.

BEFORE YOU START

Two rules, then three prompts

AI is a fast assistant, not a licensee. Two habits keep you safe.

Verify every fact

AI can invent square footage, HOA fees and features that do not exist. Check every number against records, the MLS or the seller before anything goes public.

Describe the property, never the people

Fair Housing rules apply to AI-written ads. Avoid phrases about who a home is "perfect for," and avoid claims about neighborhood safety or school quality. Also never paste private client details into an AI chat; use placeholders like [Buyer] and [Address].

PROMPT 1

Make AI sound like you

Run this once. Save the result and paste it at the top of every future conversation.

CREATE MY AGENT PROFILE

I am a real estate agent. Interview me, one question at a time, to build an "Agent Profile" I can paste into future AI conversations. Ask about my market and price range, who I mainly serve, my brokerage and required disclaimer, how I want to sound, words I never use, and my sign-off.

Then ask me to paste 3 samples of my own writing and describe my style in 5 bullets.

Finally, output the finished Agent Profile in under 250 words, starting with "AGENT PROFILE:".

PROMPT 2

Listing copy with no invented facts

The trick is to lock the facts first, then ask for copy. It forces the AI to flag gaps instead of guessing.

FACT-LOCKED LISTING DESCRIPTION

[Paste Agent Profile]

Below are my verified property facts and walkthrough notes. You may only state facts that appear here. If something is missing, write [CONFIRM: what is needed] instead of guessing.

Write:

1. MLS public remarks under [your MLS limit] characters, leading with the strongest feature. Show the character count.
2. A 250-word listing description with a room-by-room flow.

Describe the property, its features and its location. Never describe the type of person who should live there. Then list any phrase you used that a Fair Housing reviewer might question, with a safer rewrite.

VERIFIED FACTS: [paste]

WALKTHROUGH NOTES: [paste]

TYPICAL AI DRAFT

"Welcome to your dream home! Perfect for growing families in a safe neighborhood."

FACT-LOCKED VERSION

"Sunlight fills the updated kitchen, with quartz counters added in 2023. Three bedrooms, a fenced yard, and a 0.4-mile walk to Glenmont Park."

PROMPT 3

Answer new leads in under five minutes

Leads cool off fast. Build a bank of first replies once, save them as phone shortcuts, and never stare at a blank text again.

FIRST-REPLY BANK

[Paste Agent Profile]

Write first-reply text messages (under 320 characters) and emails (under 120 words) for:

1. Portal inquiry about a specific listing
2. Open house sign-in
3. "What's my home worth?" form
4. Referral from a past client

Each reply must use [Name], reference exactly what they asked about, offer one next step, and end with one easy question. No pressure language, no fake urgency, no emojis.

Put it where your thumbs are. On iPhone, go to Settings, General, Keyboard, Text Replacement. Save each reply with a shortcut like ";portal" so a full, personal reply appears in two keystrokes.

WHAT'S NEXT

Want the full system?

These three prompts are the start of **The AI-Assisted Agent**, a 17-page field guide with five complete workflows.

- ☐ The full Listing Launch Kit: MLS remarks, description, 5 social captions, sphere email and open house copy in one pass
- ☐ A 30-day lead nurture sequence and a "what do I say now?" reply helper
- ☐ 15-minute consultation prep with discovery questions and objection answers
- ☐ The one-hour weekly content engine, including faceless video scripts
- ☐ Contract-to-close timelines, Friday update emails and hard-news scripts
- ☐ 25 prompts, a 30-day rollout plan and a printable Fair Housing and privacy checklist
